During the CSCS™ class my staff enjoyed Allen’s teaching technique, although Ali taught when I went I found the information was delivered both times in an equally impressive, condensed but retainable manner and we all came away from both classes knowing the information and not just memorizing a bunch of acronyms. “I thought the Certified HIPAA Professional course was extremely worthwhile and helped to clarify the murkiness that is HIPAA. The instructor, Alan Yue, did a great job leading the course. He took a very dry topic and made it interesting and demonstrated the importance of the regulations relative to our business. I would recommend the ecfirst course to anyone, and most especially would recommend Alan as the instructor!”

“Great course. Instructor was VERY knowledgeable. I would definitely recommend this course for people who are new to HIPAA and the regulations.”

“I really enjoyed the class. I’ve been reading HIPAA regulation on and off for some years now, but felt rather bored and lost at times on how to approach understanding such a dauntingly large and somewhat nebulous federal regulation. The HIPAA Academy’s Certified HIPAA Professional (CHP) class encapsulated everything into a well-organized and structured logic that I could understand and absorb much more easily and quickly.”

“The CHP course was a well condensed course with excellent delivery of the needed regulations for my staff to be able to talk the talk and know how to walk the walk on their own.” The instructor (Lorna Wagoner) witty jokes and delivery of the information made it easier for myself and later my staff to comprehend and retain the information being presented to us. During the CSCS™ class my staff enjoyed Allen’s teaching technique, although Ali taught when I went I found the information was delivered both times in an equally impressive, condensed but retainable manner and we all came away from both classes knowing the information and not just memorizing a bunch of acronyms. “Instructor was awesome!” He knew his stuff and was able to help us put the regulations into context relative to our specific issues to the regulations. I’d highly recommend him as an instructor. The only negative I had was that it would have been helpful to have the book prior to the class. This way, we could have been more prepared to ask questions on specific items and also to have more time for on-site exam preparation.”

“First, Lorna is an outstanding instructor. She did an excellent job of keeping the class focused especially with all the material that needed to be covered.” Several years ago in the original HIPAA Privacy and Security programs, I was responsible for the security assessment for the enterprise network (WAN). Learned a lot back then. It was great to see what’s happening in the evolution of HIPAA even as we speak. Had a great time, learned a lot. Best of luck to all you folks at ecfirst.”

Wow, did I take a lot out of your training!

This class had a lot of detail

I learned a lot!

“My experience with the HIPAA Academy, specifically ecfirst was by far the least painful training experience in my 11 years in the industry. HIPAA as it applies to Business Associates has always been a gray area for me. As a vendor, being compliant in a client’s eyes is of the utmost importance and this course *really gave me some insight to be able to speak intelligently about this area.*”

“The CHP course was a lot to take in at once, but the instructor’s (Lorna Wagoner) anecdotes based on her extensive and relative field experience and her course delivery made the compliance material and the rather prosaic nature of the HIPAA Rule itself frighteningly enjoyable! *I learned a lot!*”

“*Great Course! Thoroughly, cleared up some of the muddiness of the HIPAA regulations for me.*”

“Lorna was an excellent teacher! *She was fun and kept things interesting.* There are other people in my firm that should and will take this class. I feel a lot more comfortable about how HIPAA relates to my company and how I will update our policies. THANKS! Also, I wanted to let you know that I was in a meeting on Monday and the owner of my company was talking about NPIs vs. UPINs. I was able to speak to the group on the difference and how the NPIs are assigned. Wow, did I take a lot out of your training!”

“*I recommend the CHP course for anyone desiring a comprehensive understanding of HIPAA.* The HIPAA Academy course solidified the understanding of HIPAA I had as a healthcare professional and increased my knowledge base in the areas of portability and accountability of healthcare information.”

The HIPAA Academy has embarked on a mission to train those involved with healthcare data - on the details of HIPAA law. This is no small task, as it seems even after 7 years the creators of the law have yet to move a good portion of the law out of the realm of theoretical. The instructor is probably one of the most knowledgeable in the country and his love of the subject shows in his lectures.

I finally feel like I have a direction to go with HIPAA

Well done!

“I thought that Alan was a terrific instructor. His enthusiasm for the subject matter made for an enjoyable class. He is insights and examples added some clarity to content that could be considered very cloudy in some respects. As far as the structure of the class, I thought that two days and an exam (even though I didn't take it) seemed like too much to absorb. HIPAA regulations aren't what I consider an easy topic and there was way too much to cover to prepare for an exam.”

“I thought the instructor was great; really liked his teaching style and thought he knew his stuff. On the class, I actually think for most companies- 2 days is probably about right. We tend to ask tons of questions / get into different topics (in a good way).”

“I thought the class was excellent. Not only did Alan have a thorough knowledge of what he was teaching (and many other things), he presented what could be a very tedious class in a way which kept your attention. I do think there was too much material for two days, but I think that was more of a OneBeacon thing.”

“I think the instructor did a very good job. He was able to help us relate the HIPAA regulations to our specific situation, concerns, and issues. His presentation style was appreciated because what could have been a very dry topic was made somewhat more interesting with real examples & applicability to our needs. I do think 2 days was adequate to cover the material.”

“I finally feel like I have a direction to go with HIPAA.”

“The instructor is very knowledgeable of the material!”
